MAINE PUBLIC UTILITIES COMMISSION
Investigation of Damage to Underground
Facilities for 2001
(On Target Utility Services)

ORDER APPROVING
CONSENT AGREEMENT

Welch, Chairman; Nugent and Diamond, Commissioners

I. SUMMARY

We approve the proposed Consent Agreement executed by On Target Utility Services and the Commission's Damage Prevention Investigator for resolution of this matter.

II. PROCEDURAL HISTORY

On May 13, 2002, the Damage Prevention Investigator assigned to this matter issued a Notice of Probable Violation (NOPV) to On Target Utility Services (Respondent) for an incident that occurred on January 12, 2001 at Ward Road, Topsham. The NOPV indicated that, based on information submitted to the Commission, it appeared that the Respondent committed a probable violation(s) of Maine's Dig Safe law (Title 23 M.R.S.A. § 3360-A, relating to the protection of underground facilities) and the Commission's related rule, Chapter 895, entitled "Underground Facility Damage Prevention Requirements."

The NOPV indicated the incident location, the source of the report received by the Investigator, and the nature of the violation or violations charged. In addition, the NOPV indicated the range of potential penalties to which the Respondent could be subject and the Investigator's recommended penalty of a \$1,000 fine plus mandatory Damage Prevention Training for this incident. The NOPV described the process for the Respondent to acknowledge the violation(s) and to agree to the penalty under the Consent Agreement as well as the procedural options available to the Respondent to contest this charge.

The Respondent opted to enter into a Consent Agreement with the Investigator, thereby accepting the Investigator's findings and recommended penalty. The Respondent filed the signed Consent Agreement with the Commission on June 14, 2002.

III. LEGAL AUTHORITY

Under 23 M.R.S.A. §3360-A (commonly known as the Dig Safe Law), the Maine Public Utilities Commission is responsible for enforcing the provisions of the law. The

statute also directs the Commission to adopt procedures to gather information to hear and resolve complaints of failure to comply with the law. These procedures are contained in Chapter 895 of the Commission's Rules, entitled "Underground Facility Damage Prevention Requirements," which became effective November 12, 2000.

IV. DECISION

After review of the evidence submitted in this case, we find the proposed Consent Agreement presents a reasonable resolution of this matter and approve it. The Respondent is hereby required to comply with the terms of the Consent Agreement or be subject to full penalty of law. As described in the Consent Agreement, the fine portion of this penalty will be waived if the required Damage Prevention Training is completed by August 5, 2002.

Accordingly, we
